Column 3, line 15	After "pointed", Insert --out--
Column 5, line 29	Delete "included", Insert --includes--
Column 5, line 43	Delete "16 ¹ ", Insert --18--
Column 6, line 61, through Column 7, line 6	Delete "It has also been found in accordance with the present invention that it is desirable to have an odd number of individual segments as, for example, five seven, or nine individual segments. This allows the cable to be more easily wound about a drum. In addition, it has also been found that by causing a spiraling of the individual segments of the cable over a fairly long distance, that winding of the cable is also more easily obtained. Thus, the cable can be rotated slightly when wound about a drum so as to cause a spiraling of the individual segments. Generally, it is preferred to obtain one spiral per revolution on the drum. This has been found to reduce stresses on the cable and reduce axial build-up of tension-compressive stresses."
Column 7, line 41	Delete "formed", Insert --form--
Column 8, line 20	Delete "onsite", Insert --on-site--
